

Aether Contract-Injected Prompting

Input:
Contract context + DELETE
route spec

Generate

Generated Output:
✓ import { fileRepository }
from '../lib/files'
✓ requireUser() enforced
(G2 pass)
✓ Single handler function
(no boilerplate)
✓ 214 tokens (P30:
RESOLVED)

Standard Prompting (Vanilla)

Input:
'Implement DELETE
/files/:id route'

Generate

**Generated Output
(Architectural Drift):**
✗ import { Pool } from 'pg'
(raw driver dependency)
✗ direct DB pool
instantiation (violates
repository pattern
boundary)
✗ mock filesystem
structures
✗ server bootstrap
boilerplate
✗ 4,096 tokens (P30:
OUTPUT GENERATION LIMIT
OVERFLOW)
